TEMPORARY PARKING RESTRICTIONS

January 2024 – mid-2025

New parking restrictions along Bank Street approved by the Town of Victoria Park

What we are doing

- creating a clearway on Bank Street, between Mint Street and Welshpool Road
- increasing parking restrictions in key locations along Bank Street, including around site access gates.

Why

- to allow for the safe movement of heavy vehicles around and through the project's site access gates
- to support the safe delivery of large-scale heavy concrete structures that will build the elevated rail
- to avoid conflicts with cars and trucks that may park on Bank Street
- to increase safety for all road users, including local residents and businesses on Banks Street.

When

- clearway zones will be active 8pm-5am Sundays to Thursdays until May 2024
- long-term parking restrictions around site access gates will be in place until project completion.

What to expect

- changes to parking restrictions along Bank Street
- increased "No Stopping" signage along Bank Street
- intermittent traffic management to create clearway zones
- vehicles parked within clearway zones may be towed.

Who to contact

- call the 24/7 Infoline on 9326 3666
- scan the QR code to sign up to Works Alerts by SMS or email for the most immediate updates on impacts in your area.

Dates are subject to change. Visit the website for up-to-date information.

About the project

The Victoria Park-Canning Level Crossing Removal project is Perth's first major elevated rail designed to improve public transport safety, create new and versatile public open space for the community and reduce traffic congestion.
